Attn: Building Department

Re: Shed built in 2008 by Eagle Scouts on our property at 10021 NE 124th St., Kirkland

After meeting with the Planning Department, and their review, we understand that the shed has been built within the 20' set-back required at the east end of our property.

We are in agreement that should there be a complaint in the future about its location, the shed's location will be brought into compliance.

Sincerely,

Karen Dicken
Parish Administrator
